

**BIG BIKE PARTS®**

# NEW PRODUCT RELEASE

## Tridium LED Fog Lights

**Rice Lake, WI** – Big Bike Parts® introduces the latest technology to enhance brightness and photometrics of its widely used Tridium Fog Lights. The most current iteration incorporates the latest circuit boards, increased durability, and uses the latest inline filters to work seamlessly with many other accessories. The LED's used today are 33% brighter than their original. The adjustable Tridium Fog Lights offer an intense low and wide beam allowing you to put more light, on the road, where you need it most. The Tridium lights also offer a high intensity DRL (Day Running Light), as well as an integrated rich amber turn-signal for increased safety and visibility to oncoming traffic.

These Tridium Fog Lights install in under 2 hours, feature Plug-N-Go connectors, rubber isolation bushings and all other components needed for installation. Fitments range from 2001-17 Honda GL1800 Gold Wing, F6B and Valkyrie. You can put your trust behind the most widely used and installed fog light brand in the market today!

**Tridium Fog Lights 2001-10 Non-Airbag
