Premium Helmet Headset

Premium Audio Headset, the standard for value – Communication between riders is not only fun but practical. Our Premium Helmet Headset includes an excellent noise canceling flexible boom microphone and high frequency dual speakers for clear, crisp sound. The 13-221 leads the industry with precise volume control for the left and right speakers and features an integrated microphone sensitivity on/off switch with shunt control. Clean, comfortable internal installation allows for use in most full, open face & modular helmets. Headset cord is included for terrific functionality and versatility for a tremendous value.

Part Number – 13-221
