## NEW PRODUCT RELEASE

### Focus™ Driving Lights By Big Bike Parts®

Rice Lake, WI - Big Bike Parts® new Focus™ Driving Lights are turning heads with their ability to outperform most other so called driving lights. These 3 ½" dual Cree LED lights have unmatched photometrics to shine the way over 1000 feet ahead. Not only are they bright, they are outrageously stylish with a built in visored bezel, shallow depth and only 3 ½" in diameter. Focus™ is the new standard in LED Driving Lights and the 8mm stud makes them easy mounting as a replacement to older lights. Available in either Chrome or Black Satin. Also available in kit form with all mounting brackets, switches and wire harness isolation for most Harleys, Honda, Kawasaki, Suzuki, Victory and Yamaha motorcycles.
