

NEW PRODUCT RELEASE

Heated Grips

For Immediate Release – Show Chrome Accessories® heated grips are the perfect system to keep your hands warm. Fitments offered include Honda Gold Wings, metric cruisers, Harley-Davidson motorcycles, ATV's and Snowmobiles. Available with standard black control housing or their newest chrome housing for select fitments. These grips give the rider great control over the degree of warmth produced by utilizing a variable position Hi/Med/Lo/Off rheostat switch. Durable non-slip grips are designed to be comfortable and warm when the weather turns cold and wet.
