# NEW PRODUCT RELEASE

**Nifty 50 Winner!**  
**Big Bike Parts® Electronic Fuse Block**

**Rice Lake, WI** – Big Bike Parts® repeats as a Nifty 50 winner for 2017. Powersports Business annually conducts a review of new products and selects the top Nifty 50 that consumers need to have in 2017. Selections are made based on the importance of the Nifty new product and the value to the dealers and consumers. For 2017 Big Bike Parts® Electronic Fuse Block, Part # 13-311 was selected as a winner. This must have electrical isolation block is not only compact but delivers by protecting the motorcycles electrical system from installed accessories. With today's motorcycles having exceptionally complex electrical systems, isolation of aftermarket accessories from the bikes electrical system is critical.

This ingenious fuse block comes with 11 separate circuit isolations to protect any auxiliary electrical accessories including: left and right turn signal circuits; two sets of running lights circuits; two sets of brake lights circuits; two auxiliary power circuits and three keyed auxiliary power circuits. The bikes electrical system is protected by a 20 amp fuse and 30 amp relay. The individual circuits are a combination of 5 and 10 amp electronic circuit relays.

**Electronic Fuse Block**  
**BBP # 13-311      MSRP \$59.95**
