## TireGard™ Wireless Tire Pressure Monitor System

**Rice Lake, WI** – TPMS are an inexpensive insurance policy you take with you on every ride, to enhance your safety. TireGard™ is the market leader in delivering motorcycle TPMS choices to the rider. TireGard™ offers 5 distinct monitoring systems to fit your riding needs. Monitors are either FOB style or larger handlebar mounted displays, offering both external and internal sensors. TireGard™ also is the only choice for 2 wheel displays, 3 wheel Trike displays or 4 wheel Bike and Trailer monitor display. Monitors are designed to vibrate, flash and beep to warn of pressure and temperature changes outside the selected low or high settings. Light weight 1/3 of an ounce external valve stem cap sensors require no tire re-balancing and come with replaceable batteries. Sensors have a unique 20 minute battery saver mode as well as G-Force sensing to reactivate the sensors when you start riding. Monitors have a one hour battery saver mode for long life. Includes complete instruction manual, all batteries, and a silicone protective skin for the monitor. Installs in less than 5 minutes.
